

Slavery and Human Trafficking Statement for Financial Year 2022/2023

Introduction

Selkie Investments Midstream Topco Limited is the parent and ultimate holding company of the NSMP group ("NSMP"). This statement has been approved by the board of directors of Selkie Investments Midstream Topco Limited.

NSMP does not tolerate any form of modern slavery or human trafficking in our business or supply chain. This statement sets out the steps that we take to identify and prevent, as far as possible, the risk of modern slavery and human trafficking taking place in our business or supply chain.

At NSMP, we have a zero-tolerance approach to modern slavery and are fully committed to preventing slavery and human trafficking in our operation and supply chain. We have taken concrete steps to tackle modern slavery, as outlined in our statement. This statement sets out the actions that we have taken to understand all potential modern slavery risks related to our business and to implement steps to prevent slavery and human trafficking during the financial year 2023..

Our business and supply chains

NSMP provides gas transportation and processing services to the oil and gas industry in the North Sea and gas liquefaction services in Norway. It contracts with businesses in the United Kingdom and Norway for the supply of goods and services. We have a relationship of trust and integrity with all our suppliers, including px Group Limited ("px") our operating partner, built on mutually beneficial factors. As part of the Operations, Maintenance and Management arrangements, px acts as our agent on many of our supply chain agreements and has in place established on-

boarding procedures, including supplier due diligence processes to ensure compliance with all applicable laws.

We are not aware of, nor have we been informed of, any allegations of human trafficking/slavery activities against any of our suppliers, but if we were, then we would act immediately against the supplier and report it to the authorities.

Risk assessment

During the past year, we have taken steps to ensure that px (who act as our agent) have conducted risks assessments of our supply chain taking into account:

- The nature of the services rendered by the suppliers
- The presence of vulnerable demographic groups
- The jurisdictions and sectors in which we operate

These assessments determine our response and the risk controls that we implement..

Policies

We have appropriate policies in place that underpin our commitment to ensure that there is no modern slavery or human trafficking in our supply chains or in any part of our business.

Our Anti-slavery Policy reflects our commitment to acting ethically and with integrity in all our business relationships and to implementing and enforcing effective systems and controls to ensure slavery and human trafficking is not taking place anywhere in our supply chains.

We have the following policies in place relevant to modern slavery:

- Code of Conduct - which connects our core values with the behaviours and practices that we expect from our suppliers and all those impacted by our business.
- Whistleblowing Policy - we encourage all employees, customers and suppliers to report any suspicion of slavery or human trafficking without fear of retaliation. We provide a confidential helpline to protect the identity of whistleblowers.

We continuously review and update all our policies.

Supplier due diligence

px (as our agent) conducts due diligence on all new suppliers during onboarding and on existing suppliers at regular intervals. This includes:

- Assessing risks in the provision of services
- Assessing suppliers and their health, safety and environmental standards, labour relations and employee contracts
- Suppliers are also required to attest that they comply with the provisions of the Modern Slavery Act 2015

We are also implementing a due diligence process for third parties that NSMP engages with directly.

Processes

We expect all suppliers to take appropriate measures to identify and prevent the risk of modern slavery and human trafficking from taking place in our business or supply chain. We assess the suitability of our suppliers and monitor the activities carried out by them on our behalf on a regular basis.

We take a risk-based approach to monitoring our suppliers' compliance with all applicable laws,

including those relating to modern slavery and human trafficking. Where appropriate, we conduct additional assurance by way of assessments and/or audits of our suppliers.

We shall continue to monitor and regularly review our existing processes to identify and prevent, as far as possible, the risk of modern slavery and human trafficking from taking place in our business or supply chain.
